

# Share your missed moments

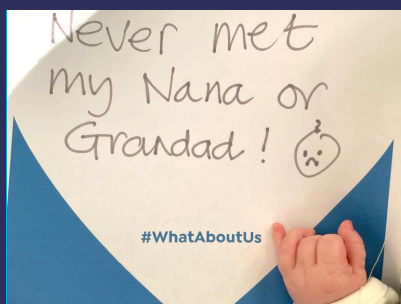

We're asking you to share your baby's missed moments directly with Rishi Sunak, asking why under 2s have been forgotten by the Government in the COVID catch-up funding

## How to get involved

### Print and snap

Select one of our moment cards or use the blank template to add your own message. Simply print the selected card from the downloaded PDF and take a picture alongside your baby to share on social media.

### Get creative

Alternatively why not get creative and come up with your own way to share your missed moment. You can also share one of our social moment cards or write your own story on the blank card.

### Share and tag

Whatever you decide to share, make sure you use #WhatAboutUs and bring Rishi Sunak into the conversation by mentioning him.

Whilst we would love you to share pictures of your baby milestones, we also want to make sure you are comfortable in doing so and understand the potential risks of sharing identifiable images of your baby. Please do get involved with our campaign but in a way that you feel appropriate. You might want to share a picture of your baby's hand without their face being visible, or if you don't want to use a photo of them you can simply share one of our campaign images to join in.
